To also provide support in general for the residency/fellowship program in Urology.	Residency Support
6935	James L. O'Quinn, M.D. Residency Education Endowment	To provide residency training and education in pathology under the direction of the Chairman of the Pathology department.	Program
6944	Sandra Freedman, M.D. Resident Education in Radiology	To create an endowed fund for resident education in the department of radiology.	Program

Code	Fund Name	Description	Type of Fund
6946	James J. Jacobs Memorial Fund for Alzheimer's Research	To create an endowed fund for Alzheimer's Research in the Dept. of Neurology in the School of Medicine.	Research
6950	James F. Rawson, Jr. Radiology Cancer Research Program	To create an endowed fund for cancer research in the Department of Radiology. Medical students will be selected by the Department of Radiology Chair (or his designee) to conduct cancer research during the summer months of the year in the Radiology Department at MCG. If the program is disbanded, then the endowment shall remain intact, however, the Chair of the Department of Radiology shall select the program to receive the income from this endowment fund.	Research
6951	James K. Moss, M.D. and David F. Kuhn Pediatric Oncology Scholar	To fund a pediatric oncology scholar and/or a pediatric oncology research initiative in the Department of Pediatrics in the School of Medicine.	Research
6954	Johnnie and W.T. Lee Cerebral Palsy Research Endowment	To provide endowment funds for cerebral palsy research in the appropriate dept at MCG. More specifically, these funds shall be used for education and research in the medical field of neurology with emphasis on cerebral palsy research and other emerging areas of research.	Research
6955	Mavis R. Harrison Endowment for Childhood Vision Development	To create an endowed fund for the Department of Ophthalmology for eye/vision care for "needy" children. The guidelines and protocols of the program (Childhood Vision Development) shall be developed and implemented by the chairman of the Department of Ophthalmology, including but not limited to protocols and guidelines for selecting "needy" children and equipment needs for the program.	Program
6959	Alexander Woodson Ashford, M. D. Scholar	For education and research in immunology with emphasis on how immunology pertains to cloning, malignancy anomalies, tissue and organ rejection, immune response, autoimmune and degenerative diseases, selective suppression, selective manipulation, trigger mechanisms, and other emerging areas of research.	Program
6960	Dr. Harold W. and Martha M. Kimmerling Cardiology Fellowship Endowment	To create an endowment for Fellowships in Cardiology in the School of Medicine. The guidelines and protocols of School of Medicine Cardiology Fellowship Committee shall be used to select recipient(s).	Program
7009	Barton Otolaryngology Endowment	The Barton Otolaryngology Endowment was established to support the educational, clinical, and research activities of the Section of Otolaryngology in the School of Medicine.	Program
7010	Raymond P. Ahlquist Pharmacology Endowment	The Raymond P. Ahlquist Pharmacology Endowment was established to support the programs and activities of the Pharmacology Department in the Medical College of Georgia.	Program

Code	Fund Name	Description	Type of Fund
7020	Lawson T. Arnold Fund	Support a continuing education course presented for physicians in Georgia and at least two other states.	Program
7021	Bailey/Smith Memorial Rheumatology	To be administered and used by the Section of Rheumatology as deemed most beneficial.	Program
7028	Class Of '60 Student Endowment	The Class Of '60 Student Endowment was established to endow medical student research projects as approved by a research committee and the Dean of the School of Medicine.	Research
7030	Guy T. Bernard Endowment	To be used in the training of health professionals to treat cancer or to supply equipment to be used in the treatment of cancer.	Program
7035	Cardiology Witham Research Endowment	The Cardiology Witham Research Endowment was established to support the programs and activities of the Section of Cardiology.	Program
7037	Curtis Carter Memorial Fellowship Endowment Fund	To fund fellowship training in the internal medicine program with the emphasis in Rheumatology Section.	Program
7038	Continuing Education/Garrison	The Continuing Education/Garrison Endowment was created to support continuing education courses and related professional activities of the School of Medicine.	Program
7040	Dermatology Lecture	Support lectureship program; or disbursed annually to benefit the programs and activities of the Department of Dermatology.	Program
7043	Family Medicine Education	The Family Medicine Education was created to enhance education programs within family medicine in Georgia.	Program
7045	Endocrinology Endowment	Support programs and activities of the Department of Endocrinology.	Program
7046	Arthur J. Gatz Memorial	To pay a calligrapher to enter the names of body donors in the MCG, GHSU Book of Remembrance. This book is and will be accessible, upon request, to individuals visiting loved ones whose cremains are buried in the memorial garden located between the CB, Carl Sanders, Research and Education Building and th IMMAG building. When the book is filled it will be placed in the GHSU Library. Approved by BOD 4-16-11	Program
7050	Greenblatt Lectureship Endowment	The Greenblatt Lectureship Endowment was established to invite an outstanding endocrinologist to deliver a scientific lecture annually.	Program
7070	W. F. Hamilton Memorial Fund	To support the programs and activities of the Department of Physiology.	Program

Code	Fund Name	Description	Type of Fund
7073	Lynne Griffin Johnson Diabetes Endowment	To fund research, education, and training programs for diabetes.	Program
7088	Mullins Memorial Library Fund	The Mullins Memorial Library Fund was established to provide funds for the purchase of books and other educational materials for the library. It may also support scholarly academic endeavors in the Department of Pathology.	Program
7090	SMAA General Endowment	To be used in support of the programs and activities of the School of Medicine.	Fundraising
7091	Thomas Muldoon Lectureship Endowment	The Thomas Muldoon Lectureship Endowment was created to establish a lectureship in the Department of Physiology and Endocrinology and to invite a distinguished scientist on an annual basis. Funds will be used to pay for honorarium, travel, printing of brochures and reception. Excess funds can be used to enhance research.	Program
7097	Porubsky Library Fund Endowment	To purchase books, video and audio tapes to maintain the high quality of the section library of otolaryngology.	Program
7102	Radiology Department	To be used in support of the programs and activities of the Department of Radiology.	Program
7103	Joseph P. Bailey Rheumatology Endowment	To support the programs and activities of the Section of Rheumatology.	Program
7105	Neurosurgery Section Endowment	To support the programs and activities of the Section of Neurosurgery.	Program
7113	J.C. Bible Jr. Pulmonary Research Endowment	The J.C. Bible Jr. Pulmonary Research Endowment was established to provide income to support research programs and clinical care of patients in the Section of Pulmonary Medicine.	Research
7114	Shane & Dodd Family Endowment	To provide financial support to the educational programs in the Department of Neurology. No distributions allowed until the endowment balance is greater than \$50,000.	Program
7120	Stevens, Billy & Bobby Memorial	To improve techniques in care, development and treatment of children and for enhancing medical knowledge of the cure and prevention of children's diseases.	Program
7122	Pathology Resident's Endowment	To supplement educational activities of the pathology house staff, including residents and fellows including travel, books and journals, publication costs, research support and other educational activities.	Program
7134	Rural Health Outreach Endowment	To support the activities of rural health medicine.	Program

Code	Fund Name	Description	Type of Fund
7141	Harry Graham Hammock Alzheimer's Research Endowment	To provide financial support for activities of the Alzheimer's Research Center.	Research
7151	Leland D. Stoddard, M.D. Endowment For Pathology	To defray the cost of travel to meetings concerning the medical field of pathology and to fund research grants for physicians performing their residency requirements.	Program
7155	Temporal Bone Lab Endowment	Purchase of drills, microscopes or other equipment needed to maintain the temporal bone lab.	Program
7160	Torpin Memorial Endowment	Support programs and activities of the Department of Obstetrics and Gynecology.	Program
7165	Rinker Witherington Urologic Society Endowment	The Rinker Witherington Urologic Society Endowment was established to support the expenses of the daily operation of the Rinker Witherington Urologic Society, and underwrite expenses incurred to sponsor an annual Rinker Witherington Lectureship.	Program
7167	Volpitto Library Endowment	Support research efforts of the faculty of the Department of Anesthesiology; to enhance educational resources for faculty, residents and medical students.	Program
7173	Waid-Holder Endowment Fund	To receive and expend contributed monies to the research programs of the Institute of Molecular Medicine and Genetics.	Research
7175	Wimberly Coleman Memorial Endowment	Benefit the section of rheumatology in the School of Medicine.	Program
7191	W. Knowlton Hall Biochemistry Endowment	Distributions may be transferred to fund 7539 at the direction of the chairman or administrative manager. Transferred funds may be used as outlined for that Fund. Purpose of 7539 is: To support various activities and programs as needed in the Departments of Biochemistry and Molecular Biology.	Program
7449	Cardiology Fellowship Fund	To establish a fund to support the programs and activities of the Section of Cardiology.	Program
7455	Alzheimer's Research	To further research in the area of Alzheimer's Disease.	Research
7460	Raymond P. Ahlquist Pharmacology	The Raymond P. Ahlquist Pharmacology Endowment was established to support the programs and activities of the Pharmacology Department in the Medical College of Georgia.	Program
7467	Allergy Immunology/B.Wray	Support of fellowship training program, recruitment, research, and speakers in the Department of Allergy/Immunology.	Program
7490	Alumni Association/Medicine	To be used in support of the programs and activities of the School of Medicine.	Fundraising

Code	Fund Name	Description	Type of Fund
7495	Regional Dinners-SMAA	To pay for School of Medicine Alumni Association regional dinners.	Fundraising
7502	Anatomy Department	For teaching and research programs in the Department of Anatomy.	Program
7504	Anesthesiology	Support programs and activities of the Department of Anesthesiology.	Program
7507	Anstadt Cardiothoracic Research & Education	To fund continuing education in Dept. of Cardiothoracic Surgery including the Multidisciplinary Thoracic Tumor Board Conference.	Program
7511	Lawson T. Arnold Expendable	Support a continuing education course presented for physicians in Georgia and at least two other states.	Program
7526	Bailey-Smith Memorial Rheumatology Expendable	The fund is to be administered and used by the Section of Rheumatology at the MCG as deemed most beneficial.	Program
7534	Barton Otolaryngology	Support the educational, clinical, and research activities of the Section of Otolaryng-ology in the School of Medicine.	Program
7535	Guy T. Bernard Expendable	To be used in the training of health professionals to treat cancer or to supply equipment to be used in the treatment of cancer	Program
7536	Bone Marrow Donor Registry Drive	Will be used in the provision of a drive to register donors into the National Marrow Registry. The cost per person of registration is \$21. The goals of the drive are to register 100 people and to increase awareness of bone marrow donation.	Program
7537	Breast Cancer Clinical Research	Clinical Breast Cancer Research needs.	Program
7539	BMB Research & Education Fund	To support various activities and programs as needed in the Departments of Biochemistry and Molecular Biology.	Program
7542	Bone Laboratory	To support presentations at meetings and entertainment of physicians.	Program
7545	Bliven Society	To support the programs and activities of the Section of Orthopedics.	Program
7552	Burn Unit Special Fund	To be used by the staff and patients in the burn unit in the interest of improved patient care.	Program
7556	Cardio Thoracic Development Fund	Support cardiothoracic surgery research and marketing efforts.	Program

Code	Fund Name	Description	Type of Fund
7560	Cardiology Research/Witham	Support programs and activities of the Section of Cardiology.	Program
7562	Center For Health Care Improvement	Promote educational advancement for residents, sponsor seminars, symposiums and research educational courses for residents, staff and faculty.	Program
7563	Cardiovascular Pharmacology Fund	Support cardiovascular pharmacology research and education.	Program
7566	Clinical Pathology Intellectual Capital	To invest in the laboratory's technical staff by supporting continuing education through meetings, in-house Continuing Education/Continuing Medical Education, publications, software, and other educational opportunities.	Program
7573	Lucille B. Winans Memorial	Support research whose benefits will accrue to patients with diabetes.	Program
7577	Class Of '60 Student Research	This fund shall endow medical student research projects as approved by a research committee and Dean of Medicine.	Research
7579	Cellular Biology and Anatomy	To support programs and activities of the department of cellular biology and anatomy.	Program
7590	Clinical Problems/Pulmonary	Support programs and activities of the Section of Pulmonary Disease.	Program
7593	Basic and Clinical Research	The funds are for MCG basic and clinical science research support. These funds are for research-related expenses, travel, boarding and lodging expenses for collaborators, and luncheon or dinner expenses related to research or for research laboratory personnel meetings.	Research
7600	Continuing Education/Garrison	Support continuing education courses and related professional activities of the School of Medicine.	Program
7603	Martha Culpepper Memorial	Support cancer research.	Research
7604	CSRA Sickle Cell Association	Support the various needs of the pediatric sickle cell population in the CSRA.	Program
7606	Cystic Fibrosis Center	Provide for needs of cystic fibrosis and pediatric pulmonology patients and families. Provide continuing education opportunities for pediatric pulmonology staff, including travel. Provide supplies & incidentals for cystic fibrosis and pulmonary centers.	Program
7620	Dean-School Of Medicine	Support programs and activities of the Dean of the School of Medicine.	Program
7623	Cell Biology & Anatomy Research	To facilitate research programs and activities in cell wounding.	Research

Code	Fund Name	Description	Type of Fund
7627	Cell Biology & Anatomy Cancer Research	To facilitate research programs and activities in breast cancer research.	Research
7639	Depression Prev. Education	To provide funding for educational and research programs for depression prevention within the Department of Psychiatry and Health Behavior.	Program
7640	Dermatology Department	Support the programs and activities of the Department of Dermatology.	Program
7642	Donald M. Sherline Maternal Fetal Medicine Research	To be used to support research in the area of Maternal Fetal Medicine and other functions.	Research
7646	Pediatric Echocardiography	To fund educational needs of individuals involved in pediatric echocardiology.	Program
7647	Diabetes Outreach	Support programs and activities of diabetes outreach programs.	Program
7651	Endocrinology Nutrition Section Education	Support the programs and activities of the MCG's section of Endocrinology and Nutrition. Including supplies, equipment, travel, hosting and attending seminars and recruitment of faculty and fellows.	Program
7652	Emergency Medicine Chairman's Academic	Support academic activities in the Department of Emergency Medicine to include teaching, resident medical education and the purchase of equipment, and supplies used for academic and teaching.	Program
7653	Emergency Medicine International	Used in direct support of the emergency medicine international medicine program.	Program
7654	Emergency Medicine Residents	Support the emergency medicine residency program.	Program
7658	Emergency Medicine Wilderness	Direct support of the MCG wilderness medicine program and/or events that fall within the disbursement guidelines and procedures for MCGF.	Program
7659	Dept. Of Pathology Congenital Heart Disease Dev. Education Fund	To support the study and research of diseases associated with congenital heart development.	Program
7660	Endocrinology	To support the programs and activities of the Department of Endocrinology.	Program
7664	MCG Epilepsy Center	Support research and continuing education for staff of the epilepsy/EEG program.	Program
7681	Experimental Surgery	Support activities of general surgery and various surgical subspecialties in the pursuit of the new and improved surgical techniques.	Program

Code	Fund Name	Description	Type of Fund
7688	Family Medicine Education	To enhance education programs within family medicine in Georgia.	Program
7691	Family Medicine Research	Support research endeavors within family medicine.	Program
7700	Georgia Prevention Institute	To support the academic and professional activity of the Georgia Prevention Institute.	Program
7703	Gastroenterology & Hepatology	To fund education and training in the fields of gastroenterology, hepatology, nutrition and pharmacy.	Program
7705	Health Svcs. Research & Development	To contribute to the development of a program of health services research within Georgia.	Program
7706	Hy & Blanche Selwyn Parkinson's Fellowship	To provide supplemental funding to the Department of Neurology fellowship training position in the Movement Disorders Clinic.	Program
7709	GI Surgery Research	To support the activities of the GI surgery service in the pursuit of new and improved techniques for GI surgery.	Research
7711	Arthur J. Gatz Memorial	To pay a calligrapher to enter the names of body donors in the MCG, GHSU Book of Remembrance. This book is and will be accessible, upon request, to individuals visiting loved ones whose remains are buried in the memorial garden located between the CB, Carl Sanders, Research and Education Building and th IMMAG building. When the book is filled it will be placed in the GHSU Library. Approved by BOD 4-16-11.	Program
7713	Gen Med/Ambulatory Care Education	Support for the ambulatory care education lecture series for the Department of Medicine.	Program
7719	Gynecologic Oncology	For support of administration and research in the Gynecologic Oncology Section. OB/GYN Department.	Program
7720	Medicine-General	To support the programs and activities of the Department of Medicine.	Program
7721	Geriatric Service	To fund geriatric service activities.	Program
7723	General Gynecology Clinical Research	For support of administration and research in the Gynecologic Oncology Section in the OB/GYN Department.	Program
7731	Georgia Sleep Center	To support the educational and research activities of the Georgia Sleep Center.	Program
7735	Greenblatt Lectureship Expendable	To invite an outstanding endocrinologist to deliver a scientific lecture annually.	Program

Code	Fund Name	Description	Type of Fund
7751	Hardy & Matthei Memorial Fund	In tribute to Art Hardy, RRT and Debbie Matthei, RNC. Contributions will be used for education purposes and sponsoring guest speakers for continuing education.	Program
7752	Hematology/Oncology/Educational	To provide funds for job-related meeting, expenses, equipment, supplies as needed for the Section of Hematology/Oncology.	Program
7753	Adult Hemophilia Educational Fund	To provide for expenses, equipment and supplies for the Adult Hemophilia Clinic as well as all expenses occurring due to job-related meetings and patient educational lunches.	Program
7763	James B. Hudson Nephrology	To support the educational programs and activities of the Section of Nephrology (books, resident training, equipment purchase, etc.).	Program
7764	Infectious DiseaseSupplemental Support	To be used for various and sundry expenditures for the benefit of ID patients and the ID section. Approved by the BOD 4-16-11	Program
7766	Lynne Griffin Johnson Diabetes Expendable	To fund research, education, and training programs for diabetes.	Program
7767	Kilpatrick Lectureship	In support of educational programs and professional activities of the Section of Gastroenterology.	Program
7768	Hospital Epidemiology/Infection Control	To be used for educational purposes (books, publications, educational conferences, etc.) to improve the infection control program.	Program
7776	Immunology and Microbiology	Departmental discretionary fund to promote educational goals and objectives of the Department of Immunology and Microbiology.	Program
7780	Leukemia Research	To be used for research in the Department of Hematology/Oncology.	Research
7784	Institute Molecular Medicine & Genetics	To support recruitment, registration, books, dues, professional services, rentals, student aid, catering, and travel.	Program
7787	Matuszak Fund	To be used in lupus research.	Research
7793	J.C. Bible, Jr. Pulmonary Research Expendable	To provide income to support research programs and clinical care of patients in the Section of Pulmonary Medicine.	Research
7794	IMPRA Vascular Fellow	To support the combined MCG/Georgia Baptist vascular fellowship.	Program

Code	Fund Name	Description	Type of Fund
7823	Oncology Research Community Clinical Oncology Program Memorial	To support the research, academic, clinical and educational activities of the Division of Hematology/Oncology.	Program
7826	MCG Center For Sports Medicine	To allow an avenue of support from interest groups/individuals to advance the functions/activities of the Center For Sports Medicine.	Program
7829	Medicine/Continuing Education	Support for the Department of Medicine continuing education department-guest speaker expense for Grand Rounds.	Program
7834	MCG Disaster Medical Assistance Team	To be used in direct support of the Disaster Medical Assistance Team.	Program
7835	McCranie Child Psychiatry Expendable	To be used to invite child psychiatrists annually as visiting professors to participate in the training program of the psychiatry department.	Program
7836	Johnathan E. Trull Transplant	To assist transplant donors and recipients from South Carolina.	Program
7839	Harry Graham Hammock Alzheimer's Research Expendable	To provide financial support for activities of the Alzheimer's Research Center	Research
7844	Harrison Fund In Neurology	Student educational scholarship, brain tumor research, and wherever the greatest need is in neurology.	Program
7845	Wanda Harper Memorial Fund	In support of the epilepsy center.	Program
7847	Neurosurgery Resident Education Fund	To support the education of neurosurgery residents.	Residency Support
7851	Minority Education Program	To support Pastoral Care Department and the continuing efforts to educate in the area of end of life issues, including but not limited to, organ donation. The fund assist the Department of Patoral Care in carrying out the mission to all clergy in the CSRA.	Program
7855	Multiple Discourse Model For Physician Training	Multiple Discourse Model for Physician Training Program.	Program
7856	Gynecologic Cancer Prevention Center	This fund is to be used to support patient care, patient services, education and research, including purchase of equipment, supplies, travel money and other expenses related to the gynecologic cancer prevention .	Program
7862	Thomas Muldoon Lectureship	Establish lectureship in the Department of Physiology and Endocrinology to invite a distinguished scientist on an annual basis. Funds to pay for honorarium, travel, printing of brochures and reception. Excess funds can be used to enhance research.	Program

Code	Fund Name	Description	Type of Fund
7864	Mullins Memorial Library Expendable	To purchase of books and other educational materials for the library; support scholarly academic endeavors in the Department of Pathology.	Program
7866	Neonatal Nutrition	Support research and educational activities in neonatal nutrition.	Program
7867	Nephrology Section Expendable	To support the programs and activities of the Section of Nephrology.	Program
7868	Nell Warren & William Simpson Elkin Foundation	To enhance ongoing clinical trial using Chemoradiation to treat advanced head and neck cancer - to support analysis of pre-treatment tumor biopsies.	Program
7869	Neuropsychology Research	To support neurological and neuropsychological research and associated student education, resident training, and faculty/staff expenses.	Program
7870	Neurology Department	To support the educational programs and professional activities of the Department of Neurology.	Program
7876	Nuclear Cardiology Research & Education	To support research and education in the Section of Nuclear Radiology.	Program
7877	Medicine Clerkship	Funds to be used for educational purposes. (travel, books and supplies)	Program
7881	Medical Students Migrant Health Initiative	To create an opportunity for medical students and physicians from MCG to provide health care during the height of the Vidalia onion harvest.	Program
7882	Retronead	To fund the research project titled "Retrospective Study of in Utero Ant epileptic Drug Effects on Neurodevelopment." Funds will be expended according to the detailed budget of the study.	Research
7884	HIV/Aids Program	To provide support from interest groups and individuals for persons living with HIV/AIDS in the CSRA. To be used for various expenditures for the benefit and education of HIV/AIDS patients living in the CSRA.	Program
7893	Neuroscience Center Research & Education Development	To further the development of research and educational programs in the Neuroscience Center of Excellence.	Program
7894	MCG Spine Program	To support spine program and activities.	Program
7897	Mandawat Educational Fund	To support continuing education in the form of travel, registration, books, software, etc....for Mandawat, cardiology faculty and fellows and staff as deemed appropriate by Dr. Mandawat.	Program

Code	Fund Name	Description	Type of Fund
7905	Housestaff Education Fund	To support the programs and activities of the Department of Obstetrics/Gynecology.	Program
7907	Ohms Research Fund	To support research efforts in Reproductive Endocrinology, Infertility and Genetics section of the Department of Obstetrics and Gynecology.	Research
7910	Ophthalmology	To support the programs and activities of the Department of Ophthalmology.	Program
7930	Organ Procurement Program	To support the endeavors of the Organ Procurement Program related to public and professional education on organ and tissue donation.	Program
7935	Orthopedic Nursing	To support the programs and activities of the orthopedic nursing section.	Program
7947	Porubsky Library Fund Expendable	To purchase books, video and audio tapes to maintain the high quality of the section library of otolaryngology.	Program
7950	Gastroenterology	Support programs and activities of the Section of Gastroenterology.	Program
7952	Psycho Pharmacology Clinical Research	Research and associated activities in psycho pharmacology clinical.	Program
7957	Pulmonary/Critical Care Fellowship Fdn.	To support educational program which cannot be supported by other means. To reimburse the purchase of library books, training manuals, video and board review manuals, registration fees, food, lodging and travel expenses.	Program
7959	Parkinson's Disease Toxins	To support the generation of monoclonal antibodies, cell culture supplies, analytical supplies, and assays.	Program
7961	Pathology Special Projects	To support special projects in pathology as needed.	Program
7962	Pathology Educational Fund	To provide support of pathology educational programs-lectureships, visiting professorships, seminars, symposia, courses.	Program
7965	Pathology Residents Expendable	To supplement educational activities of the pathology house staff, including residents and fellows including travel, books and journals, publication costs, research support and other educational activities.	Program
7966	Pediatric Urology Research	Unrestricted use for equipment, supplies, personnel, and other expenses associated with pediatric urology research.	Program

Code	Fund Name	Description	Type of Fund
7967	Pediatric Rehabilitation	Educational grant to cover baclofen pump education materials and trials costs, expenditures related to rehab development.	Program
7968	Pediatric Surgery	For use in pediatric surgery to improve care for children.	Program
7969	Pediatric Allergy Expendable	To support research and education within the Section of Allergy-Immunology in the Department of Pediatrics.	Program
7970	Pathology-Research Fund	To support research efforts in the pathology department.	Research
7971	Pediatric Rheumatology	To support the activities related to the education, research and patient care in the area of pediatric rheumatology.	Program
7974	Pediatric HIV/Aids Support	To assist patients who have a HIV diagnosis-to support the child or the child's family.	Program
7976	Plastic Surgery Micro Surgery Lab	Unrestricted general funding for the functions of the microsurgical lab.	Program
7978	Prisant Hypertension	To support research expenses, unsupported travels, or other unanticipated needs.	Program
7979	Pediatric Sickle Cell Clinic	To support programs and activities of the Pediatric Sickle Cell Clinic.	Program
7980	Pediatrics Education & Development	To support education and development programs and activities of the Department of Pediatrics.	Program
7983	Pediatric Recreation Therapy	To be used for a play therapy program for all pediatric medicine patients.	Program
7989	W. F. Hamilton Memorial Fund	To support the programs and activities of the Department of Physiology.	Program
7995	Plastic Surgery Account	To be used in support of the programs and activities of the Section of Plastic and Reconstructive Surgery.	Program
8000	Psychiatry Department Account	To support the programs and activities of the Department of Psychiatry and Health Behavior.	Program
8005	Radiological Physics Fund	To be used in support of continuing research in radiological physics.	Research
8006	Radiology Research	To support the research programs and activities of the Department of Radiology.	Program

Code	Fund Name	Description	Type of Fund
8008	Psychiatry Patient Support	Funds will be used to support patient activities conducted on the Child and Adult Psychiatry units. The funds may also be used to purchase toys and gifts for patients on these units for holidays.	Program
8020	Radiology Department	To be used in support of the programs and activities of the Department of Radiology.	Program
8036	Renal Patient/Family Accessibility Project	To fund nearby lodging and meals to renal patients and families to facilitate transplant procedures.	Program
8038	Research-Mellor	To fund research in treating transplant patients in regards to tissue graft rejection.	Research
8042	Joseph P. Bailey Rheumatology Expendable	To support the programs and activities of the Section of Rheumatology.	Program
8044	Reproductive Endocrinology & Genetics	To support the educational programs and professional activities of the Section of Reproductive Endocrinology and Genetics.	Program
8049	Richards Orthopedic Trauma Research	To enhance the research, development and mission of the orthopedic trauma service.	Program
8050	Rural Health Outreach Expendable	To support the activities of rural health medicine.	Program
8052	Rinker Witherington Urologic Society	To support the programs and activities of the Rinker Urologic Society.	Program
8054	Pediatric Endocrine & Diabetes Fund	To support research and personnel support for outreach educational activities and service to families.	Program
8055	Neurosurgery Section Expendable	To support the programs and activities of the Section of Neurosurgery.	Program
8058	SOM Partnership W/T.W. Josey High School	The funds establish a pipeline of prospective minority health professionals extending from high school to college, health professions school and the health workforce of Georgia by reinforcing the science preparation and standardized test-taking skill of eleventh and twelfth graders, reinforcing participating students' interest in health-related careers, augmenting the professional development of science teachers who teach our target group and increasing the number of Georgia students who enter the health professions.	Program
8059	Shane & Dodd Family Expendable	To provide financial support to the educational programs in the Department of Neurology. No distributions allowed until the endowment balance is greater than \$50,000.	Program

Code	Fund Name	Description	Type of Fund
8068	Sickle Cell Educational Fund	To fund educational programs, provide educational materials, and support activities of the Sickle Cell Center.	Program
8069	Sickle Cell Patient Emergency	To provide funds for needy sickle cell patients (transportation, hotel, meals) provide funds for faculty/staff to attend meetings for continuing education.	Program
